Subject: Input--Five Year Review

I have **attached** several documents that I would like to submit as official input into the Five Year Review Process currently being conducted for Butte, Montana Area Superfund sites. These documents each raise issues that are pertinent to the current Five Year Review. I expect that they will be considered and that a response will be provided to each point as provided for by EPA policy. I expect that they will not receive cursory consideration or treatment.

Dr. John W. Ray
